

Hi Wendy and family!

Just thought I would give you a quick update on Carson(the goldendoodle we purchased from you last December). He turned 1 year old yesterday. We started obedience school last night at Warren County. He was such a gentleman and really made me look great. I had a lot of comments about what a good temperment he has. They have recently had some not so nice goldendoodles come through and I think they were concerned about him, at least until they met him. When we graduate in 8 weeks we will have our Canine Good Citizen certificate and will continue on for our therapy dog certification. My plan is to visit nursing homes, hospice and perhaps children(I work at Cincinnati Childrens anyway). For just being one, Carson has such a good mind and presence about him. He is great with the kids and is very loving. I will try to forward the picture of him and the kids in the hot tub(I don't think I sent that one yet, if I did forgive me but it is so cute). Thanks again for such a great dog and I will try to keep you updated with his successes along the way!!!

The Grove family

Hi Wendy,

Hope all is well with your family! I bought the last goldendoodle of the September litter in December and I thought you might like an update. He is more than what I could have hoped for. He loves the kids and is great with them. He was easy to housetrain and he is really beautiful. I will attach a couple of pictures. He is almost 7 months old and is 70 pounds. We had him neutered at 5 months old and he did great with that too. Feel free to use me as a reference with any future litters. I have nothing but good things to say about Carson. He has brought us all so much joy. It is my husband's first house dog and he is really happy about having a dog in the house. Well, just thought you might be interested to know!

Shauna

Hi Wendy,

I thought you and your family would like to hear that our Golden Doodle Holly, who we got from you last December, was shown in our local fair this weekend. She and my daughter entered in a "Dog and Owner Look-a-Like" class and took 3rd place over many contestants!

Holly was the picture of good behavior even though she is still just a few days short of being one year old. She and my daughter Brooklee (age 10) share blonde curly hair and made an adorable pair up on stage.

She is very smart and so very loved! Today she had her first "big girl" grooming job and came home looking gorgeous (and knowing it of course). If I were a bit more tech savvy I would send a photo. But since I'm not, suffice it to say she is a beauty. We are so glad to have her in our family. Thank you!

Hope you enjoy this bit of happy news. Feel free to share it with Holly's parents :- ) and perhaps with potential customers!

Renée Boots
